

line 3: change "several" to –at least" and "the range of" to –at least one–;

amend claim 21 as follows:

line 3: change "of from several degrees to several ten degrees" to –between 2° and 20°;

line 4: change "several" to –2 to 10 mm–.

Remarks

The drawings (three sheets) have been amended to show, schematically in Fig. 1, a receptacle 6, and, Figs. 2 - 5, English instead of German legends.

None of the above changes result in new matter being added to Applicants' original disclosure. In particular, the concrete unites of measurements now inserted into the specification and claims are within the meets and bounds of the German "einigen" translated to "several" in Applicants' English specification and claims.

For the Examiner's convenience, Applicants are submitting two versions of substitute specifications and claims, one with and one without amendatory markings.

It is earnestly urged that the amended specification and claims place the instant application into condition for allowance which is courteously solicited.

Respectfully submitted,

Karl Hormann
